Box Lunch: The Layperson's Guide To Cunnilingus

Synopsis

Written by a woman experienced on both ends of the oral sex equation, this hilarious, illustrated, nuts-and-bolts exploration of cunnilingus is unlike anything ever written before. Explicit, detailed, enormously entertaining and written for both novices and pros, Box Lunch demystifies the female anatomy with an eye toward making oral sex as satisfying for the giver as it is for the receiver. Make no mistake, this is the most direct route to orgasm for many women, and Diana Cage shows you how to not only excel at it but revel in it! More than a guide to cunnilingus, Box Lunch is a clever, witty and informative guide to all types of sex. Cage also discusses anal sex, spanking, intercourse and even includes a fully illustrated chapter on the best sex positions for oral and otherwise. With her trademark naughty humor Cage takes you on a fun and funny ride to the best sex you've ever had.

Customer Reviews

Lovin' a little Box Lunch! This book is full of fabulous information on women's bodies, sex, all kinds of how-to's for pleasin' your venus ...tongue, fingers, toys... And the best part is that reading it is like talking and laughing with your best friend. Box Lunch is an intelligent, laugh-out-loud, totally useful, totally fun book.

This handbook to giving, getting, and understanding the joys of cunnilingus is a helpful and hilarious pleasure to read. I highly recommend it for all the ladies - it will help you understand what's goin' on

down there, and how it could be oh so much better! Read it, take copious notes, and pass it on to your girlfriend, boyfriend, best friend, or neighbor.

Cage offers some helpful tips, but if you want, like, step by step instructions to take a woman all the way through the stages of arousal to orgasm, try Ian Kerner's *She Comes First*. Of note: a rather disturbing passage in which Cage advocates sneakily introducing one's tongue or finger to the back door of someone who isn't into that, with the idea that they'll be so in the moment that they'll enjoy it and not be grossed out. Um, no. Just no. It's never okay to disrespect someone's boundaries like that. I dunno, I don't feel I really got my money's worth. I mean, it's better than fumbling around trying to figure things out on your own, but not as good as the Kerner book (which is the only other one on the subject that I've read).

I have enough experience to not look like an amateur and this book taught me plenty. I recommend this book for everyone. Straight men or bi/lesbian women can learn plenty.

This book had no organization whatsoever. It reminds me of the types of articles I'd read online when I had my first girlfriend at age 16, just thrown incoherently into an eBook. Basically think of all the things you can do "down there" and the author lists them with no rhyme or reason, and then gives you an enthusiastic "Go for it! I'm sure something will work!" I mean, she's right, but save your money.

recently spent an enlightening evening with Diana Cage's "Box Lunch - The Layperson's Guide to Cunnilingus," a delightful manual on the fine art of carpet munching. Cage does a great job in writing a handbook that addresses people of every gender and sexuality. In this laugh-out-loud guide, Cage covers everything from basic anatomy to advanced oral techniques that should provide you and whomever you fall into bed with hours of enjoyment! It's also a great introduction to things that some may consider a little bit kinky, but that most are at least curious about, like sucking dyke cock, anal play, and BDSM. There's an informative chapter dedicated to health concerns because as Cage says, "Knowledge is power, and being powerful is hot!" She also manages four pages of "Fabulously Fun names to call your Pussy," including "Christina Aguilera" which is either a hilariously inane reference to pop music's dirty girl thrown in for the author's own amusement, or something that needs to be explained to me! This is the kind of book that should be passed amongst lovers and friends alike. It's bound to provide enlightenment, laughs, and a little inspiration to get

your nose out of a book and in between a woman's thighs!

Literally. I used this book to ward off a yellow jacket that had flown in the car window while I sped down the freeway. But seriously, this is my favorite sex guide in all the world. It's short. It's funny. And the advice is truly practical. Most helpful to me the was part on shaving--boy was this Italian floozy in the dark about that.

I have no idea what compelled most of the reviewers to rate this book 5 stars. I read the book, and though it was somewhat entertaining and easy to read, it just didn't give me any special information. I assumed there were going to be some special tricks that I could use, but got little more than information about a few positions, a paragraph or two about how to lick, and then some info on doing anal. Interesting, sure, but nothing new. It's a decent read, but you probably won't learn anything new.
