Very well written. Bravo! (couldn’t resist). I originally ordered this on my Kindle, but there is so much information that I am also ordering the hardback copy which will be easier for me to reference. It’s obvious that there has been a lot of research done on Dr. and Mrs. Dubrow’s part. The book is packed with instructions and information. I’m impressed with Dr. Dubrow’s conservative approach to procedures and the rating system for procedures is very helpful. Am also impressed with the fact
that although their own line of products is mentioned, they have not done so in an obnoxious promotional way. They list their products along with many other alternative products with a good percentage of them available affordably and over the counter. Thank you for that. Mrs. Dubrow offers advice in a girl-chat way, offering her own experiences and suggestions in a helpful and approachable manner. One can actually learn something without feeling overwhelmed. Nice job!

I’m loving this book! It is informative, easy to follow and funny. I thought I knew a lot but not so much - from over the counter lotions and sunscreen info to the real scoop and details about Botox and all the other fads, they really break it all down. If you think you want to have plastic surgery or do something trendy to look younger, read this book first I think. I’m also going to do some of their tips for prevention because I’d never go see a plastic surgeon.

With so much information overload on the aging process, it was a pleasure reading a really objective book like Dr & Mrs. Guinea Pig. What better person then Heather Dubrow to talk about what’s available in the market place for looking your best...this is a person that is undera microscope every time she goes in front of a hi-def TV camera....she looks fantastic. Taking this one step further, who better then a Board Certified Plastic Surgeon to explain all of the great results and also the pitfalls of plastic surgery....Terry covered the good, the bad and the ridiculous. BTW- this is a book that should be read by both men as well as women.

Really good information. I appreciate the honesty of Dr. Dubrow and Heather helped with what she knows. What I liked was that they did not think a lot of the anti-aging procedures were that great of an idea. Very helpful!!!!!!

I love the voice and humor in the book. I was hoping for more -- more crazy stuff that stars are doing and more about surgeries etc. But I love this couple and how well they treat each other and others so I would still buy it either way.

The content is great- I’d give that 5 stars. However he book is so poorly made - I have pages falling out! It started on page 5 and by the hair section on page 38- the pages fell out of the binding!!! Whoever published this did not do Terry or Heather justice.

It’s packed with great advice and insight into the myriad of options available to stay looking
young, fabulous and the best you can be. The Dubrow’s are honest, experienced and really enjoyable to read as they share the pros and cons the pitfalls and the solutions to just about everything that can age or serve to âœœde-ageâ • us from head to toe.I was surprised and delighted to see topics ranging from product ingredients to stress to some new procedures I had never even heard of. There truly are so many choices when it comes to anti-aging programs, serums, procedures etc and great thing about this book is that Dr. and Heather Dubrow have either tried the option personally and/or thoroughly researched it for us. Thank you Dr. and Mrs. Guinea Pig! Itâ€™s really a quality, smart book as you get both the consumer/patient and Dr./chemist perspective and understanding. I finished reading it and now Iâ€™m going to keep in handy as a reference. Yes, thereâ€™s that much great information in it.
