Customer Reviews

My Granddaughter received this book for Christmas two years ago when she was two. She still enjoys hearing the stories about Budgie. It is a thoroughly enjoyable book for children. The video is great too. Wish there were more of them.

Budgie: The Little Helicopter is wonderfully illustrated and catches the child's eye with all it's bright colors. The story is intriguing and my two children, 5 & 6 at the time (now 7 & 8) were totally absorbed by it. My son slept with the book for weeks.

We bought this book because my son is in love with helicopters, and he likes it.. for the helicopters. I don't like the kidnapping them. Basing a book for young children around it is distasteful. There is some strange innuendo between Budgie and Pippa. There seems to be something a little off or weird about the Budgie stories I can't quite put my finger on. I just know that I really do not enjoy reading them to my son.

Beware - I doubt you'll want to read this story to your your children - The story line involves a child

being abducted from school and then using the helicopter to help find her. There's so many other important uses for a helicopter - Did this story really have to be about child abduction?
