## Synopsis

See a Huge Variety of Beautiful Centerpiece Picturesâ ^Here comes the brideâ <sup>TM</sup> is traditionally one of the most desired songs a woman wants to hear played specifically for her. We fantasize about this day; it is the bullâ <sup>TM</sup>s eye of our main feats. The day we were taught by our mothers and grandmothers to be the crowning glory of our existence. Forget the accolades we may earn at work or school, it means nothing to them if it is not backed up by a proposal, white dress and mother of the bride speech. If we are honest with ourselves we want it all, the romance and fairytale; a wedding that is remembered by friends, family and well-wishers. As a result we push to have the most perfect wedding ceremony and reception ever to bless this earth, or as close to it as possible. In our aim to achieve our perfect day we make a seemingly endless list that can be quite daunting in completing. There is the Engagement party, the invitation list, shower to plan, and all the various dinners that are a consequence of this momentous occasion. It is a never ending roller coaster that leaves us reeling and faint with exhaustion. But take heart, it can be done. Ask any bride and sheâ <sup>TM</sup>ll tell you it was worth it....The perfect guide for brides on their big day.Your wedding is one of the most important events of your life, the day of dreams and fantasies. ## Customer Reviews

I was having a hard time envisioning what I wanted to have on my tables during my wedding. I had read a few of Sam Siv's other wedding books and knew that I could read this and know what I wanted afterwards. Of course that ended up being the case as the author provides plenty of information and ideas to plan with. Her ideas for centerpieces are categorized into themes, holidays, and times of the day that the wedding is taking place. The author also provides DIY ideas that are great for anybody on a budget looking to do some decorating on their own. What sealed the deal for me was the breakdown of flowers and the information about which flowers are in season when. This allows me to walk into my florists shop with a pretty good idea of what I can get for that time of the year without having to be confused about my choices. Excellent and easy read for anyone planning their wedding!

Wedding centerpieces is a must have to go along with your wedding planning. It provides information to know what flowers to use, the size of centerpieces and how to match them with your wedding theme and type of wedding. In total it talks about 30 different centerpieces. It provides some great photographs as examples. There is even a chapter on DIY. This is the perfect book for a bride to use as they begin to plan for their centerpieces. My favorite piece of this book is the summary by season of which flowers are recommended for that season, something someone like me definitely needs to know!

Another great wedding guide book from Sam Siv! I got this one for my mom who loves doing centerpieces and table decorations. Give her five different flowers and she will turn that into a big beautiful bouquet. Rightly so, for my sister's upcoming nuptials, my mom is tasked to help with the table decors and centerpieces and I'm glad she liked this book a lot. Not only it gave her various ideas for the themed centerpieces, being artistically inclined, she also took notes of the different

do-it-yourself ideas incorporated in the book. Me, I was already beaming with joy by just looking at the pictures of the masterfully artistic wedding centerpieces shown in the book. Truly a helpful wedding guide!

Centerpieces can be one of the harder things to figure out for a wedding. This book is a very helpful and practical guide. There are so many decisions to make when getting married, this book like a mini wedding planner. Love it!
